PRAYER FOCUS

Welcome to the final Prayer Focus of 2025! Thank you so much for the multiple ways you have supported us this year, with special thanks for your prayers. Everything we achieve is entirely by the grace of God, and we're so grateful to those of you who faithfully stand with us before our Father and commit our work to Him.

1-6 DEC

WEEK ONE

This week, we pray for children struggling with health needs, marking World AIDS Day (1st) and the International Day for Disability (3rd).

Please pray for:

- HIV+ children at the Kadella Centre in Sri Lanka
- HIV/AIDS-affected children at Spurgeons Academy, Kenya
- sponsored children in Uganda and India affected by HIV/AIDS
- equity and justice for disabled children in poor communities
- more advocates for disabled people including more Disability Support Groups in Uganda.

7-13 DEC

WEEK TWO

This week, we continue to pray for our work in the slums of Guatemala City and for our Christmas Appeal.

Please pray for:

- continued protection for our partners and the children they support in high-risk Santa Faz
- encouragement for children to continue in education despite multiple challenges and barriers
- more mentors so we can support more children
- a positive response to the appeal, so we can help more children
- wisdom and inspiration for our fundraising team as they seek to encourage donations.

Double Your Gift!

Remember ALL donations to our Christmas Appeal will be doubled in value thanks to match funding, until we reach our £60,000 target. We're helping to

renovate and expand the Casa Club, so marginalised children can avoid gangs and the dangers of street life in Guatemala City. More info at www.globalcare.org/Christmas-2025

14-20 DEC

WEEK THREE

This week, as Christmas approaches, pray for the youngest children, born into multi-dimensional poverty, just like Jesus.

Please pray for:

- mums and babies with inadequate shelter and clothing
- babies born displaced from wider communities or families which would usually support them
- babies born without healthcare
- young families fleeing persecution and targeted acts of violence
- child refugees trying to make sense of life in foreign lands, cultures and languages.
